| <ul style="list-style-type: none"> <li>The most impressive thing about this course is that it covers almost all the basic tools needed for a digital media specialist. Starting from scratch, it touches all the domains like photo, audio, video, website etc and the tools used in that.</li> <li>Teaching us the technical components of media production - photography, sound mixing and video editing. Most of us in the class had little to no experience in production, so this course was our first leap into the field.</li> <li>EVERYTHING. Everything taught in class is very useful.</li> <li>I would have to say that the vast array of relevant subject matters that were covered throughout the course was very effective. Nothing was overly focused on and nothing was neglected in this regard.</li> <li>This course is a great introduction to the design side of Media Management. coming from a media planning background this course really expanded my mind to be more creative and comprehend the work produced by Media designers.</li> <li>The most effective aspect of this course was that we were able to apply our class lessons to our creative goals and aspirations. Every project taught me something new and I left with tons of new content and ideas for my personal career/creative goals. Virgil was very helpful and inviting.</li> </ul> |               |

| <ul style="list-style-type: none"> <li>I understand the logistical limitations of doing this, but I would encourage Virgil Wong to dedicate more time in class to walk/talk us through the technicalities whilst we do it on our computers - instead of us just watching on the big screen and taking notes. When the assignments come along, we're kind of 'left hanging' and expected to follow through on these same steps.</li> <li>N/A</li> <li>I would probably add an additional hour so that students can practice the softwares introduced I find that practical application in class helps retain information more effectively.</li> <li>No suggestions it was perfect.</li> </ul> |               |

| <ul style="list-style-type: none"> <li>I would never ever forget Mr. Virgil in my life. He is one such professor who really understands each and every student of the class, motivates him/her in all aspects. With respect to teaching, he is again the best. His course modules and references are amazing and the way he teaches in class is incredible. He takes time to look at each and everyone and give proper comments to the assignments. Overall, he is the best professor I have had in my whole life.</li> <li>Virgil Wong's enthusiasm is great. It is clear that he is very knowledgeable in the subject of production and we can really learn a lot from him. Furthermore, his approach to constructive criticism and endless encouragement is very useful for those of us - namely the majority - who are still unsure on our feet within this field. Maybe his effectiveness could be increased if he focused more on the technicalities of production rather than the theory.</li> <li>Virgil is encouraging, sensitive, compassionate, caring, full of knowledge and very enthusiastic. He is always willing to listen, talk, understand and take the best from his students. It was an honor to be his student and learn from him. I admire him.</li> <li>Professor Wong is a SUPERB Professor. He is a wonderful communicator and a delightfully intellectual man with so much to offer educationally. I learned a great deal from him and from his course. What a great experience it was to study under him. He gives such profound creative advice.</li> <li>Professor Wong give a very clear instruction and example in every class. Also he is so lively which make his class super fun and I got a lot of knowledge from this class.</li> <li>Prof Wong is great! I wouldn't change anything.</li> <li>Professor Wong was indeed one of the most enthusiastic and motivating instructors that I have ever encountered. Not only he made every single classroom session pleasant and productive, he also went above and beyond to make sure the students understand the concepts well. Moreover, for students who did not have a design background like myself, he made us feel very encouraged and comfortable by continuously recognizing our efforts and providing valuable feedbacks. He also made himself available whenever students needed extra help. I had such a great experience taking Professor Wong's class this semester, in fact I had already recommended one of my friends in the same program to take it next semester as well.</li> </ul> |               |
