18 - What were the most effective aspects of this course?

Response Rate	8/12 (66.67%)
- The modules uploaded to canvas for each of our assignments to give us references for our assignments was extremely helpful. - Learning more about programs like Photoshop. - Practical modules and assignments with introductions into varying creative design tools and ideas. Very engaged with the class and encouraging. - Covers many aspects of media design subject. The syllabus provides a solid foundation. - The syllabus was well thought out - covering a lot but still manages to learn on different topics. - Weekly projects building on the prior week's work constitutes an effective structure for learning. I especially enjoyed presenting my work each week and receiving feedback from my professor as well as fellow students. - Reviewing our work as well as our colleague's works in class helped me to have a much better idea of what I've done wrong and right in my assignments. - The instructors preparedness and enthusiasm for the material. He holds expertise in a wide range of technologies and mediums and is excited to share his experiences.	

19 - What, if any, suggestions do you have for the course?

Response Rate	4/12 (33.33%)
- would be great to have more reasonable time to work on the subject of the interest of the student so that we can ace in one topic at least. - n/a - We have covered the very basic aspects of what the class is supposed to teach. I have indeed learned those basics of each program, however I felt like he professor had to pass through a lot instead of focusing on a few topics that we could learn better. For instance, when I thought we were finishing classes we started learning coding, which is one of the most complicated things to learn. Prof. Virgil, with all of his knowledge, made it seemed a bit easier, but even so this is not something supposed to be tough in one day of class. Everything had to be very superficial because of the amount of subject we had to go through in a short period of time, which has nothing to do with Virgil. Despite what I just said, he was able to teach everything in the most smoothly way possible. - None.	

20 - Please comment on your instructor's teaching effectiveness:

Virgil Wong	
Response Rate	8/12 (66.67%)
- Professor's teaching was incredible. I enjoyed every class because of the enthusiasm the professor got with him. His instructions were also very clear and easy to follow. The assignments definitely challenged me creatively. - He did awesome! I learned a tremendous amount. 5 stars! very friendly, very knowledgeable, very respectful, very inspiring! - Truly enjoyed the teaching style of Prof. Wong - very effective and enjoyable. Really pushed me to do my best as the teacher is really enthusiastic about the course. The course had a lot to cover but Prof. Wong still managed to pay attention to each student. Definitely my favourite course in TNS. - I really appreciated the style of Professor Wong's feedback. He encouraged me think deeper and see my project from another perspective. His enthusiasm is evident in his coaching and teaching. As a result, this class a lot of fun and I learned a lot! - For people who had no experience with the programs we had to deal with in class in such a short period of time like me, professor Virgil was very effective on his teaching. Always trying to explain everything associating with other subjects that would make it easier to understand and always willing to help us before or after class. - In class demonstrations were very helpful - Extremely effective at answering questions, challenging students to produce quality work by engaging with all the tools used to create and produce content.

21 - Other Comments?

Response Rate 5/12 (41.67%)

- highly recommended.
- I am impressed and suprised at the amount of knowledge I picked up in just 1 semester in this course - I'm so excited to continue the journey!
- The course should focus a little more on two or three subject in order to be more effective.
- Great professor. Highly recommend
- I highly recommend Virgil Wong as a professor of Media Design. A delightful and engaging course!

22 - Approximately how much did you spend on textbooks, materials and supplies for this course in this semester?
